

# Ear Bud Holders

Directions & Photo taken from:

<https://makeit-loveit.com/make-an-earphone-holder-from-a-mint-container>

## Supplies Needed:

- Ice Breakers mint container
- Goo Gone or something to remove stickers
- Key ring
- Washi tape
- Scissors or X-Acto knife

**EARPHONE HOLDER**  
FROM AN OLD MINT CONTAINER

Directions:

- 1.) Remove the stickers from the mint container – you may need to use Goo Gone or some type of cleaner to get all of the sticky residue off of the container.
- 2.) Attach the key ring through the drilled holes at the top of the container. (You can also attach a clip to the key ring, to make it easier to attach to your bag, etc.)
- 3.) Place washi tape across the inner circle/lid of the container (top and bottom), going past the edges to make sure you have it completely covered.
- 4.) Use a scissors, X-acto knife, or some type of sharp edge to trim the washi tape so that it just fits over the inner circle/lid. Make sure to allow for the crease on the top of the container.
- 5.) Share a photo of your completed Ear Bud Holder!
