

Photos & Instructions courtesy of: <https://bit.ly/3a9tup0>

Supplies Needed:

- Washi Tape
- Blank Notebook

Instructions:

- 1.) Start by selecting your tapes.
- 2.) Cut a straight edge on your tape, and run your first color along the top edge. If it's not straight, you can pull it up and reposition it! Before cutting, leave a little excess tape at the end to fold over the inside cover of the notebook. Repeat with your second tape, third tape, and so on, until your notebook is covered!
- 3.) In the pictured example, basic horizontal stripes were used. You could also do vertical or diagonal, or even weave or cut sections of the tape to create a pattern.
- 4.) Now your notebook is personalized and ready to go!!
